

Level 2 interaction task 2 2014: **WORK and MONEY**

After talking to Kara and Jessica in Chile, students over there are interested and amazed at how much work NZ students do at home and how many students have paid jobs. The Chileans want to know if NZ students are happy about this situation or if they would prefer to do less. We are going to skype them to discuss this and to prepare for this skype meeting have a conversation with a student in the class about the work you do at home and outside, how much money you earn and how you spend your money.

You could discuss what you think about the work you do in the house:

- are the jobs around home fairly distributed
- do you do more or less now than in the past
- would you like to have a *criada* (maid)?

You could discuss what you think of your paid job (if you have one or what you would like if you don't):

- what you like or don't like about it
- if you think the pay is fair
- any other job you used to have and how it compares to your current job
- how you spend your money and how you would spend it if you had more!!

Remember:

- ✓ have opinions and *JUSTIFY* them as much as possible
- ✓ work at keeping the conversation going - practice fillers and useful conversational phrases
- ✓ respond to what your partner says
